- Values are freely chosen **life directions**.

- Authentic and based upon what **YOU** consider truly important
- Represent what you want to stand for, how you want to interact with the world, and what sort of strengths and qualities you want to develop

# Work Values Inventory

## WORK VALUES INVENTORY

Values are an important part in the career decision-making process. It is important to select career options, which best fit your values. The list below will help you to identify those values that you think will be important to you in your work. Your work values may change as work situations change. It is important to evaluate your work values often.

Read each value and decide if it is always important to you, sort of important or not important to you. Place an "X" in the appropriate box. The definition is there to help you think about the value. If your definition is different, use your own definition when rating the value.
